# OF LONG ISLAND AN 18-YEAR BOY

Now the Timid Housewives of Flushing May Breathe Much Easier.

HE CAME FROM DETROIT

He's High School Graduate, Has Girl Who Loves Him and Burgling's Easy.

The women of Flushing and surrounding places of Long Island enjoyed their sleep last night, for at last he polite night burglar is safely behind the bars in Long Island City. it was indeed a relief for timid women, for during the past month more an fifty homes have been entered, nd Peter Plinkow, eighteen years old. No. 150 West Fourteenth Street, Manhattan, admits that he entered he greater portion of the burglarized mes and got away with lots of loot. He was captured yesterday and when arraigned before Magistrate Fitch waived examination and is held for the Grand Jury without ball.

To Detectives Bernard Kelly and Eugene Fallon, Pliskow told his story. These detectives, who, a week ago obtained a description of the boy burgiar, are now working in New York getting back the loot that Pliskow pawned. The prisoner said that he was a graduate of the Detroit High School and while there lived at 191 Division Street.

His room in New York furnished further clues. A revolver, two search lights and a number of keys were found, and on the dressing table was a postal picture card from a girl who signed herself Goldle. On it was written "To My Boy, with my most incere love." It is believed by the police that she is his fiances.

The youth asked the newspapermen not to publish his right name and to eliminate anything that would bring in the girl's name. When told that the name and all he had in his room were now to be used publicly against him Pliskow broke down and cried, "I think it is mean to drag in one's family and his friends."

The police believe that in this capture they have cleared up the mysterious night burglaries that have terrorized women in Long Island.

rorized women in Long Island.

"Really, I am not so bad, for I entered the homes of two cops and did not steal their revolvers," said the prisoner. "Other times I have found myself in homes where poverty was visible. One of these I visited last week. All I foun" there was \$12 in a baby bank, and after breaking it open, left the money on the table. They needed it more than I did.

"I started out right in life, but lost my parents just as I entered college. (He refused to mention the name of the college). This forced me on the world and I went to the easiest job, and really I am ashamed to tell the police how easy it is to rifle drawers and touch off the banks kept in the houses."

HARD COAL MINERS SENT HIM PICTURE. **WILL STRIKE UNLESS** UNION IS RECOGNIZED

> President White Delivers Ultimatum to Operators in Conference at McAlpin.

Either recognize the union or face a strike-this was the ultimatum thrown at the hard coal operators to-day by President White of the United Mine Workers of America, shortly before the joint conference of hard coal operators and miners reassembled at the McAlpin to formally consider the 1916 demands, chief of which are a twenty per cent. increase and recognition of the union. White's emphatic stand on recognition of the union startled the operators, who were not prepared to see him take such a position.

recognition of the union will not be accepted as a basis on which to take up the 1916 demands, and that under ro consideration will the anthracite industry sign an agreement committing itself to recognition.

It was binted the operators in this field are prepared to make a reasonable compromise on the wage increases demanded by the miners, but that any insistence on recognition of the union will bring about a break. Whte, in his statement, said if the anthracite miners went out on strike

THAT IS, something is wrong with baby, but we can't tell just what it is. All mothers recognize the term by the lassitude, weakness, loss of appetite, inclination to sleep, heavy breathing, and lack of interest shown by baby. These are the symptoms of sickness. It may be fever, congestion, worms, croup, diphtheria, or scarlatina. Do not lose a minute. Give the child Castoria. It will start the digestive organs into operation, open the pores of the skin, carry off the fætid matter, and drive away the threatened sickness.

## A New Way to Sweep Without Raising Dust

Yes—think of it! No more dust clouds rising to choke you—no more need of wearing a dust cap. You can dust your ornaments first, then sweep, and your ornaments will be as dust-free as before you started.

Simply sprinkle a little Nomordust across your floor—then sweep it ahead of you as you go, and your floors will be cleaner than you can possibly get them without it.

It makes carpets look like new, bringing out the faded colors, and is equally fine for wood floors and lino-leum. You only have to sweep half as often, because Nomordust gets all the dust out of a room every time you

sweep instead of merely spreading the dust around, as ordinary sweeping does. A Nomordust home is a healthier home, because in dust lurk disease germs, and Nomordust "means just what it says."

Nomordust makes easier work. You can sweep any room in half the time with half the effort, yet the cost is but a few pennies a month!

A million women are already lightening their housekeeping tasks with Nomordust, and they all say they would never again be without it.

You try it! Get a 10c, can at your grocers to-day. He'll return your money if you're not more than pleased.
